- 16:30 Event close

**Department for International Trade:** A United Kingdom government department responsible for striking and extending trade agreements between the UK and foreign countries, as well as for encouraging foreign investment and export trade.

**FLOTATION ENERGY:** A new offshore wind venture that was founded to develop new opportunities for renewable energies all over the globe. The team's greatest expertise lies in floating offshore wind, but it is equally capable in fixed structures. With Flotation Energy's founders having initiated and developed the world's largest grid-connected floating wind farm, the Kincardine offshore wind farm, in the North Sea near Aberdeen, Scotland, Flotation's experience in consenting and project management for these types of renewable energy projects is unrivalled.

**EVEROZE:** A trusted advisor to some of the biggest brands in the renewables sector. Everoze work closely with clients to make projects, companies and technologies futureproof and financeable. They do so to help accelerate the transition to a decarbonised energy system, by offering: Due Diligence on Demand, Project and Strategic Support.

**UKEF:** UK Export Finance is the trading name of the Export Credits Guarantee Department. UKEF provides risk protection and facilitates finance for UK exporters, and supports loans to overseas buyers. Their obligations carry the full faith and credit of the UK Government.
